DON'T LET A THIEF USE YOUR MOBILE!

REGISTER YOUR MOBILE TODAY

www.immobilise.com is a **FREE** web-based, secure, property registration system. It is endorsed and searchable by all 43 UK Police Forces. Fill in the online form and create your own account. You will receive an email from immobilise confirming your account name and password.

Every mobile has a unique identity referred to as an IMEI number.

>>TO FIND YOUR IMEI KEY IN *#06#<<

To make your mobile useless to a thief simply contact your service provider should it be lost or stolen and ask them to block the phone. This will prevent your mobile from working on any network.

WANT TO FIND YOUR STOLEN MOBILE AND TAKE A PICTURE OF THE THIEF?

Always use a pin code to protect your mobile phone from any unauthorised use. If you have an iPhone or iPad download the "Find my iPhone, iPad or Mac" using the iTunes site. If you are using an Android phone or laptop, search the web for "Free download-able tracking apps" and download one today.

DON'T LET A THIEF SELL YOUR MOBILE PHONE!

Register your phone on www.immobilise.com, and then tick the 'lost or stolen' box. Your mobile will then be

WHO'S EYEING UP YOUR HOUSE?

A practical guide to keeping your home secure

WHEN IT'S LESS URGENT
THAN 999

Most burglars are not master criminals — they're opportunists.

In nearly a third of all burglaries the residents had left windows or a door open when they went out.

Inside

The evidence suggests that once thieves have broken into your home and got away with it, they may be back again in a short space of time unless you do something to prevent it from recurring. If positive action is taken, you will substantially reduce the chance of a repeat visit.

By taking some simple precautions you can make your home a safer place.

- Keep doors and windows locked even when you are at home.
- Make your house appear occupied at all times by using timer switches.
- Hide vehicle keys and don't leave valuables on display.
- Mark valuables with your house number and postcode. Free UV pens are available at main police stations. Cycle engraving events are advertised on our web site.
- Laptops and android phones can have free tracking programmes downloaded onto them. Search for "free laptop tracking programmes" on the internet.

Outside

It's not unusual for burglars to use items found in a garden shed to break into your home. Many people underestimate the value of the items they store in their shed, garage or garden. Unfortunately, criminals are fully aware of the value of the goods that some people do store in vulnerable places. The following advice can help to keep your property secure and reduce the chance of you becoming a victim of crime.

Ensure you don't make it easier for someone to break into your home:

- Restrict access to your garden with gates and fences that are difficult to climb over or get through.
- Keep bushes and trees low, burglars hate being on view. You can also use prickly plants to prevent access.
- Use movement activated floodlights and garden lighting to unnerve burglars.
- Secure outbuildings, especially sheds and garages with a BS approved lock.
- Position your shed as near to your home as possible, so that it is clearly visible from your home.
- Lock cycles — even when in garages.
- Record cycle frame numbers and get them security marked.
- Put tools and ladders away, burglars may use them to gain entry.
- Lock lawn mowers to something bulky.
- Get a house alarm (BS: EN50131 standard) with bell boxes to front and rear. Consider extending the system to cover your garage and shed.
- Burglars don't like gravel; it's noisy to walk on.
- Paint your house number and postcode on your garden equipment e.g. lawnmower, strimmer and tools.
- Never leave spare keys hidden in your garden, garage or shed for children or family members — this could invalidate your home insurance.

Going Out

- Lock doors & windows.
- Don't leave keys in door or window locks.
- Close curtains when out and leave a light or radio on (use timer switches).

Going On Holiday

- Cancel milk and newspapers.
- Cut lawn before you go.
- Don't put your home address on luggage labels on your outward journey.
- Ask someone to look after your house, collect post and draw/open curtains.

Don't make it easy for a burglar

The simple tips given in this leaflet are a step in the right direction. There are many ways you can deter a burglar from breaking into your home. **Humberside Police** recommend you protect your home. Keep it safe, keep it locked.

Free crime prevention surveys are available, please **call 101**.

Immobilise

Buying and selling stolen and found mobile phones is big business for criminals; mostly because they are high value items, which are easy to steal and sell on.

Approximately 55% of people who report their phones as lost or stolen, cannot provide the phone's unique reference number (IMEI).

To tackle thefts of small electrical products, Humberside Police is running a campaign to get people to register the details of their valuables, on to a free website, called immobilise.com.

Help us to help you!

Complete the attached form, which should take no more than a few minutes. You only need to provide your nominal details, make and model of your phone and your IMEI number.

Once you have done this, click on to the email address, which is immobilise@humberside.pnn.police.uk. The form will then be fired across to a dedicated SPOC box, which a member of Police staff will pick up and process the information. They will create a unique Immobilise account for you. You will later receive an email, which confirms your account details and password, so you can add your other property and valuables at a later date.

You can find out what your IMEI number is by typing *#06# into your handset

The e-form will also be sent out to other partner agencies in various stages. Organisations taking part include Hull University, Hull City Council, Humberside Fire and Rescue and Neighbourhood Network. We want as many people as possible to register, so that the Police have a better chance of finding the rightful owner of lost and stolen property.

If you want to tell your family and friends about the record keeping site, please ask them to go direct to www.immobilise.com.

Information about Immobilise

- The secure web based data storage facility has been used by members of the public to record details of their personal property since 2003.
- Each account is password protected.
- You can only upload property which is identifiable and bears a unique searchable number.
- Your own records remain private. When you update the site to say your items are lost or stolen, your information becomes searchable to all UK Police and registered second hand dealers.
- All mobile phones can be registered with the site.
- Every service provider can block a phone, preventing any unauthorised use, and they can also provide the IMEI numbers even after the mobile has been stolen.
- To enable meaningful investigations and a chance of recovering stolen property, victims must be able to provide accurate & unique descriptions, which is why we are encouraging record keeping.
- If you do not want to use this web site, keep a paper copy of a list of equipment, so you can still give identification details if your things are stolen or lost.

Tracking Apps

There is a multitude of free downloadable tracking apps available for your mobile phone, laptop and tablet devices, for example preyproject.com (or something similar). These work on android phones and standard laptops. All Apple products are downloadable via iTunes, for example Find My iPhone.
